Maple Class Newsletter

16/10/26

Another super week in Maple!

In Maths this week we've been consolidating our knowledge of square, cube and prime numbers. We have been using our counters and multilink to make arrays and cubes to help us understand each number's properties. We have also been working hard to push ourselves to reach the challenge questions at the end of each lesson, with lots of success and great problem-solving skills on display!

Writing this week was a chance for us to start planning and writing our own defeating the monster stories! Having spent the last few weeks preparing and learning lots of new writing skills, it's now our chance to show off all we've learned! Zoe and I can't wait to read the final stories!

The afternoons have been busy too, with all our other curriculum subjects. In Science we explored how gravity acts as a non-contact force; in PSHE we looked at how to offer helpful support and advice to those in need; and we've also been busy practicing our class assembly which we hope lots of you will be able to attend next Monday!

We also finished our first class book "The Boy at the Back of the Class" which we have really enjoyed in our story time each day! Now onto the next...

Have a lovely weekend

Katy and Maple Class

This week's awards

Teacher awards:

Ethan & Freya H

Star of the week:

Jinny
