Maple Class Newsletter

06/11/26

Another brilliant week in Maple!

We have made a great start back to our Maths learning! One tricky new skill this week has been learning how to multiply by a two-digit number, which requires lots of steps! Everyone has shown excellent determination to master this method and we are all much more confident than we were at the start of the week.

Our English lessons have been linked to our new science topic of space, looking at the 1969 moon landing. In Guided Reading, we have been exploring a newspaper article about the event and in our Writing lessons, we looked at a recount from the perspective of Neil Armstrong. We've been thinking about how this historic event impacted science today, as well as how each of the three astronauts felt on their journey.

This week we were also lucky enough to have a judo session on Thursday morning. This was great fun and we all took on the challenge to learn a new skill.

In the afternoons, our Geography lessons have looked at the difference between physical and human features; in PSHE we explored what makes our own unique culture; and in Science we began to explore what makes up our solar system.

Have a lovely weekend

Katy and Maple Class

This week's awards

Teacher awards:

Thea & Bonnie

Star of the week:

Syd

Some of our artwork looking at Indian mandala patterns

Next week's learning

Maths: Multiplication skills

English: Writing: Recounts, Guided Reading: The Moon Landing, Spelling: silent letters

Science: Planets in our solar system

Topic: River structure

RE: Special books

Reminders

This term's **PE** days are **Monday** & **Thursday**
