

Maple Class Newsletter

12/09/25

What a brilliant week we've had in Maple Class!

In Maths the children have been working hard to understand the basics of place value, identifying what value each digit represents in numbers up to one million. This core knowledge will set us up for all our Maths topics throughout the year.

We also started our new writing unit, looking at information texts on dragons. Maple class have written some fabulous descriptions, challenging themselves to use ambitious vocabulary and using relative clauses to add more detail to their sentences.

Our afternoons have also been full of creativity, designing Anglo-Saxon manuscript letters in Art; practising teamwork skills in PE; understanding notation in Music; investigating friction in Science; and exploring our goals in PSHE.....a very busy week in Maple!

We look forward to another full and fabulous week next Monday.

Have a lovely weekend!

Katy and Maple Class

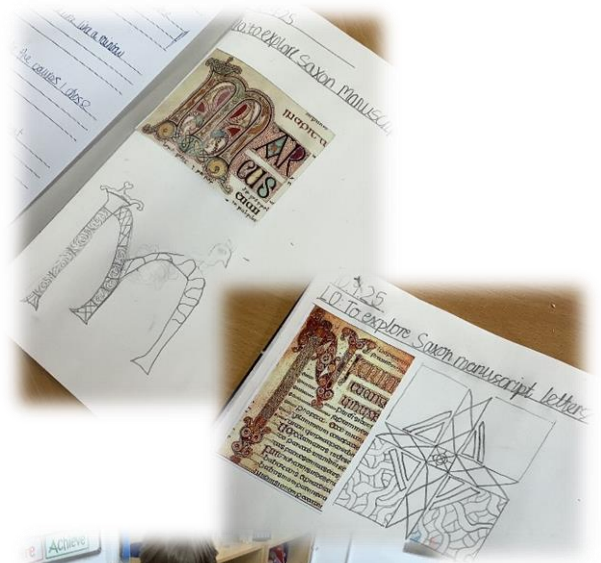

This week's awards

Teacher awards:

Bobby & Leo Jones

Presentation: Greta

Star of the week: Lydia

Next week's learning

Maths: Place value with decimals

English: Writing: Information texts, Reading: "Anglo Saxon Boy", Spelling: "-tious" & "-ious" suffixes
