

Maple Class Newsletter

19/09/25

Another great week in Maple!

In Maths we have been working hard to multiply and divide both whole and decimal numbers by 10, 100 and 1,000, using our sliding place value charts to help us understand how we are manipulating the numbers. Everyone has made excellent progress!

We have also been practising our information text writing ready for our Fire Writes next week. The children have created their own dragon species showing some fabulous creativity. Myself, Sarah and Liz have loved reading about smoke dragons, Finish Foghorns, nature dragons and a whole host of other fantastic species from their imagination!

This week we had our first session with the Bath City sports coaches to perfect our basketball technique and also worked in teams to construct parachutes of different surface areas ready to test next week in our science experiment. Yesterday afternoon, the children also made some great progress in their final manuscript letter designs in Art, which will be displayed on our Topic working wall for all to see.

Have a lovely weekend!

Katy and Maple Class

This week's awards

Teacher awards:

Bea & Daisy

Presentation: Leo A

Star of the week: Margot

Next week's learning

Maths: Finishing place value and moving on to column addition & subtraction
