10/10/25

Another busy week in Maple!

In Maths this week we've been working hard to identify multiples and factors. Timestables recall is really important for this topic, so make sure you keep practising on TTRS – little and often is key! We've also been busy in our Science lessons, exploring the effects of gravity and understanding why it is different to the other forces we've looked at so far.

Thursday was a FANTASTIC day at Avon Rugby Club, where all of Maple participated in the year 5 and 6 rugby festival. The children were great sportsmen and women, showing excellent teamwork skills and kind interactions with the other competing schools (and we even secured a trophy!)

This week was also our kindness week in school, aligning with our new behaviour pledges to show kind actions, words and hearts. We created our own kindness challenge in Maple class, where the children were given a member of staff in school to show an act of kindness towards. I have already heard from many staff members how grateful they were for the children's kind gestures.

Have a lovely weekend!

Katy and Maple Class

This week's awards

Teacher awards:

Noah & Oli

Presentation: Dotty P

Star of the week: Dottie G

Next week's learning
