07/11/25

What a super first week back!

In Maths this week we've been applying our multiplication knowledge to calculate the area of rectangles, compound and irregular shapes. We've been working hard to remember the correct units, to revisit our long multiplication method and to understand what it takes to be a good learning partner when problem solving.

In English, we started our new writing unit looking at recounts. On Monday we had a practise, telling each other all about our favourite day over half term and across the week, we have started to build up our writer's toolkit for what makes an excellent recount. Our model texts for both writing and guided reading have been about the Moon Landing of 1969, making some great links to our new Science topic.

Our afternoons have been full of music, both watching the wonderful Jack and the Beanstalk pantomime on Monday and in our own music lessons listening to Vivaldi's Four Seasons suite and starting to learn the songs for our Christmas Concert!

Have a lovely weekend!

Katy and Maple Class

This week's awards

Teacher awards:

Dotty P & Greta

Star of the week: Julia

Presentation: Bobby

Next week's learning

Maths: Drawing and identifying angles

English: Writing: Recount texts (Moon Landing model text), Reading: Moon Landing newspaper article, Spelling: Silent letters

Science: The planets in our solar system

Topic: Viking and Saxon influences today

RE: Religious scripture

Reminders

PE Days this week:
Monday & Wednesday
Friday: Rocket making
workshop
