

Oak Class Newsletter

What happened this week:

This week has been another interesting week. We have completed our first Sats practice week. The class did brilliantly and tried their best in every test. I know a few of them were apprehensive about the tests but hopefully seeing them for the first time should have eased some of those concerns. We will be looking at them in a bit more detail in the next term, so everyone can begin to understand some of the types of questions they are likely to face and the best way to answer them. A lot of them were concerned that they didn't finish the tests, this is completely normal as they will also get a better understanding of the time they have in each test.

On a more interesting note, this afternoon we have had a great time designing and building our buzz wires. This week we have been making the main box to create the main body of the structure. This project uses a great combination of the subjects we are looking at: DT to build, science to understand the electricity circuit and computing to code. It is always a project I look forward to each year and once they are complete, we will be testing them with our special friends!

Teachers awards this week:

Star of the week: Eloi

Awards:

- Archie
- Skye

Presentation: Pheobe

What we're learning this week:

Maths: Equivalent fractions

English: Writing to build suspense.

DT: Building, testing buzz wires.

Music: Christmas performance songs.

Key dates:

PE Days: Monday and Wednesday

- Stem morning (Wednesday 3rd December)
- KS2 Dress rehearsal - Tuesday 9th December @ 1:30
- KS2 performances – Wednesday 10th December @ 1:30 and 6:00
