

Maple Class Newsletter

23/01/26

Another fantastic week in Maple!

In Maths this week we have been exploring rounding our decimal numbers and revisiting how to calculate perimeter. Using our small steps, everyone has shown increasing independence and we have continued to focus on the presentation in our Maths books. We have been enjoying tackling some more challenging problem-solving questions and thinking about when we can use these skills in life.

This week in English has been our fire write, working independently to show all we have learnt over the last two weeks about what makes a great newspaper article. We've had articles about new theme park and restaurant openings, fashion shows and even celebrity visitors coming into school. The progress in our writing since September is amazing!

Our Computing lessons this week have continued to look at the skills required to be a graphic designer, using Google Drawings software to create our designs. These last two weeks have been spent becoming confident with the different tools and skills, in preparation for designing and making logos for our own brands next week. I can't wait to see the finished products!

Have a lovely weekend

Katy and Maple Class

This week's awards

Teacher awards:

Peony & George

Star of the week: Dotty P

Presentation Award: Dottie

Next week's learning

Maths: Division

English: Writing: fiction unit on suspense,
Guided Reading: "Journey to Jo'burg", Spelling:
homophones

Science: Thermal conductor experiment

Topic: Reflecting on Apartheid

RE: The beauty in creation

Reminders

This term's PE days are
Monday & Tuesday
