

Maple Class Newsletter

13/02/26

Another great week in Maple!

In Maths we have been learning all about percentages, using our definition that percent means "out of one hundred" to help us make links to our previous learning on fractions and decimals. We have used our hundred squares to help visually represent percentages and discussed how they are used in the real world.

We had a fabulous morning on Tuesday for our Safer Internet Day activities. We made some excellent posters to celebrate the benefits but also warn against the potential dangers of using AI. We will display these around the school so everyone else can learn too.

Thursday afternoon was our time to reflect and think about children's mental health week. Following the theme "This is My Place" we made a whole class piece of artwork, forming a mosaic of tiles that celebrated who each of us was as an individual. It was a lovely afternoon celebrating all the amazing things that make us who we are.

We also ended on a real high this Friday morning, teaming up with Hazel Class for a morning of Science challenges. We explored what it took to problem-solve like an electrical engineer and even created our own batteries from fruit and potatoes!

Have a lovely half term!

Katy and Maple Class

This week's awards

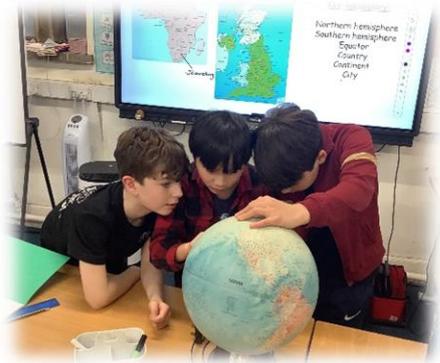

Teacher awards:

Ashley & Leo Jones

Star of the week: Amber

Presentation Award: Margot

Next week's learning

Maths: Fractions

English: Writing: Suspense narrative, Guided

Reading: "Journey to Jo'burg", Spelling: "or" sound

Science: Separating materials

Topic: Human geography of Johannesburg

RE: Important journeys

Reminders

This term's PE days are
Monday & Tuesday
