

Hazel Class Newsletter

Date: Monday 30th March

This week has been full of fantastic learning and wonderful creativity!

Maths

We continued our work on the 4 times table this week and learnt about coordinates. We plotted coordinates on grids.

English: Persuasive Adverts

The class wrote persuasive adverts for their *dream holidays* and they were very convincing! The children used imaginative descriptions, powerful vocabulary and persuasive techniques to make their holiday destinations sound irresistible.

Science – Sound Gongs Experiment

This week, the children carried out an exciting experiment called “**sound gongs**” using metal hangers. They explored how sound travels and discovered that **sound is louder when it travels through solids than through air**. The children enjoyed listening to how clearly they could hear vibrations through the string!

Easter Service

We enjoyed our Easter service. The children sang beautifully and delivered their speeches with confidence.

Best wishes,

Sarah

Learning last week

Maths: Coordinates

Writing: Persuasive holiday adverts

Times tables: X4

Dates

PE: Tuesday and Friday

Wednesday: Gladiator visit

Thursday: Easter bonnet parade.

Times Table focus next week: **x4**
