

Maple Class Newsletter

24/04/26

What a brilliant week we have had in Maple!

In Maths this week we have been busy recapping how we collect, present and interpret data. We conducted our own surveys and presented our data as line graphs, bar charts and pictograms, creating questions for our learning partners to answer. Lots of enthusiasm and participation in Maths this week – well done!

Our English learning has also been lots of fun this week, as we started our new writing unit looking at discussion texts and introduced our new text "The Invention of Hugo Cabret" in Guided Reading. Next week we will start reading the book and see if any of our predictions from the front cover were correct.

We had a great afternoon on Wednesday as we began our new DT unit looking at earthquake-resistant structures. In teams, we explored which structures we thought could withstand the force of an earthquake, using cocktail sticks and jelly sweets to build some models. The designs were fantastic and showed excellent resistance against our simulated earthquakes!

Finally, a big well done to the girls from Maple who represented Batheaston at the football tournament on Thursday. They played excellently and showed wonderful sportswomanship – Jenny was very impressed!

Have a lovely weekend!

Katy and Maple Class

Next week's learning

Maths: Volume & capacity

English: Writing: Discussion texts, Guided Reading: The Invention of Hugo Cabret, Spelling: "ough" letter string

Science: Lifecycle of birds

Topic: Roman crime & punishment

RE: The two great commandments

This week's awards

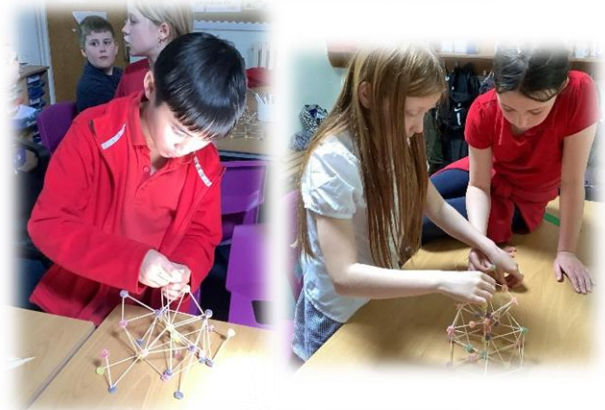

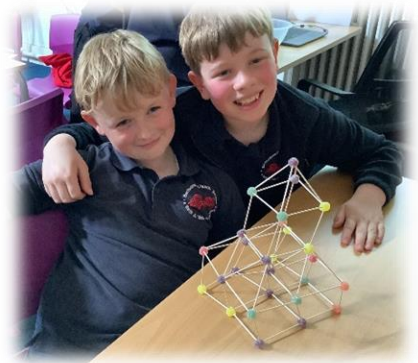

Teacher awards:

Oli & Jayla

Star of the week: Arlo

Handwriting: Lydia

Reminders

PE days: Mon & Tues

Tuesday: Forest School
