

Maple Class Newsletter

12/06/26

What an excellent week we have had in Maple!

This week has been time for our assessments in Maths, SPAG and reading. Everyone should be incredibly proud of the resilience, determination and positivity they have shown throughout these! We understand assessments can feel daunting, but everyone tried their absolute best which is all we ever ask!

Our afternoons have been a nice break from our assessments! In Geography we used our coordinates skills to plot and read 4-figure grid references; in Art we started some sketch work inspired by the illustrations in our book "The Invention of Hugo Cabret"; PE lessons continued our Sports Day practise; and in RE we explored what moral dilemmas are and how we can try to resolve them with the best solution.

On Wednesday, we also had an assembly with Sally all about how we keep everybody safe in school. This was a really important message to make sure all children understand that this is always our top priority. Children offered wonderful ideas such as our online filtering system, first aid, staff on duty, trusted adults and our behaviour pledges that underpin all we do – kind words, kind actions and kind hearts. In Maple Class, we award kindness house points each day and it is wonderful to see children recognising others' compassionate actions.

Have a lovely weekend!

Katy and Maple Class

Next week's learning

Maths: Symmetry

English: Writing: Adventure stories, Guided Reading: The Invention of Hugo Cabret, Spelling: over- prefixes

Science: Plant life cycles

Topic: Modern day crime & punishment

RE: Understanding moral choices

This week's awards

Teacher awards:

Daisy & Julia
