

Maple Class Newsletter

19/06/26

What an excellent week we have had in Maple!

In Maths this week we have been working on our skills to reflect shapes and identify lines of symmetry. This required us to show lots of accuracy and attention to detail. We also spent time on Friday creating Rangoli patterns as a creative way to consolidate this topic.

Our writing this week has been full of imagination and creativity! We have been putting our writer's toolkit into practice, innovating a story opening inspired by Hugo Cabret. Everyone has worked hard to include ambitious descriptions and language to create atmosphere and suspense for the reader. Everyone has also been eager to share their work and we enjoyed ending our sessions hearing everybody's writing.

Thursday was a wonderful day celebrating healthy living week. We began with our Sports Day where all the children showed wonderful enthusiasm and sportsmanship. It was lovely to see children cheering each other on regardless of what house or year group they were in. We then spent the afternoon preparing some healthy recipes to share and enjoy.

Our afternoons have also been busy! In our Science lessons we dissected flowering plants; in Art we continued our sketching illustrations; and in Topic we have progressed along our historical timeline to explore crime and punishment in the modern day!

Have a lovely weekend!

Katy and Maple Class

Next week's learning

Maths: Arithmetic skill revision

English: Writing: Adventure stories, Guided Reading: Rumaysa (fairytale with a twist), Spelling: the -ful suffix

Science: Plant life cycles

Topic: Crime & Punishment over time
