

Maple Class Newsletter

18/09/26

Another brilliant week in Maple!

In Maths, we have continued to look at place value but this time with decimals, introducing our thousandths column. We've been working hard to multiply and divide these numbers by 10, 100 and 1,000, using this skill to convert between different units of measure. Lots of resilience this week!

In English, we've continued to practise writing our information texts, choosing locations from around the UK to write about. We've had information texts about locations from Pembrokeshire, Bristol, Brighton and more! There have been lots of ambitious language choices and a great effort to include our new skill of using a relative clause to add extra detail.

Our afternoons, as always, have been full of fun and creativity. In Science we've been busy making parachutes ready for our air resistance experiment; in French we've been learning the vocabulary for colours and animals; and in Art we used collage techniques to create our own postcard designs that could be sent from across the globe. We were also very lucky on Monday to have coach Andy in school to help us prepare for the upcoming tag rugby festival.

Have a lovely weekend

Katy and Maple Class

This week's awards

Teacher awards:

Freya P & Ivy

Star of the week:

Emma Harwood

Parachute making!

Next week's learning

Maths: Addition & Subtraction

English: Writing: Information Texts, Guided Reading: "The White Giraffe", Spelling: short y-i sound

Science: Investigating air resistance

Topic: Our seven continents

RE: Qualities of God debate

Reminders

This term's PE days
are **Monday &
Wednesday**

Monday - Rugby with coach
Andy

Wednesday - football with
Bath City
