

Maple Class Newsletter

25/09/26

Another great week in Maple!

In Maths this week we have been recapping our written methods for column addition and subtraction. We've been focusing on our presentation, particularly with decimals, to carefully line up our numbers in the correct columns. Everyone has shown brilliant understanding of exchange, which will prepare us for next week where we will use these methods for some problem solving!

In Writing, we had our first opportunity to show what we can do independently, writing our travel guides for countries around the world. Zoe and I have been particularly impressed with everyone's handwriting and ambition to use challenging vocabulary and writing techniques. A very impressive standard of writing for this early on!

In our afternoons, we have been busy exploring our 7 continents in Geography; testing our parachutes and then evaluating our experiment in Science; another fantastic tag rugby practise with Andy; and starting to look at South African Ndebele patterns in Art.

We've also been getting creative with our handwriting and spelling, creating word art to help us practise our spelling rules and letter joining. They all look fantastic!

Have a lovely weekend

Katy and Maple Class

This week's awards

Teacher awards:

Jesse & Everett

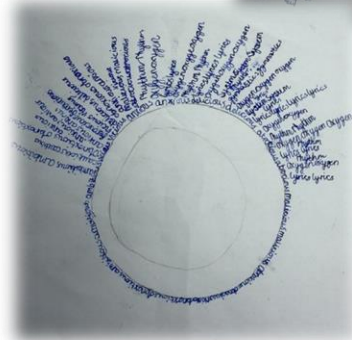

Star of the week:

Bonnie

Some of
our word
art!

Next week's learning

Maths: Addition & Subtraction with decimals

English: Writing: "Defeating the Monster"
stories, Guided Reading: "The White Giraffe",

Spelling: long y-i sound

Science: Water resistance

Topic: 4-figure grid references

RE: Christian forgiveness

Reminders

This term's PE days are
Monday & Wednesday

Wednesday - football with Bath
City
