Hazel Class Newsletter

Date: Friday 23rd October

Dear Parents and Carers,

Writing

In Writing this week, the children have been planning their own finding tales in preparation for writing them after half term. They used their imaginations to invent magical and mysterious objects that could be discovered within a story and thought carefully about how these discoveries might change the adventure. The children showed great creativity and enthusiasm during the planning process and are very much looking forward to bringing their ideas to life when we return.

Maths

In Maths, we have been learning how to add and subtract fractions with the same denominator. The children worked hard to understand the methods and became increasingly confident when solving fraction calculations. Those who were ready for an extra challenge applied their skills to a range of word problems, demonstrating excellent reasoning and problem-solving skills.

Science

In Science, we have been comparing habitats by exploring the similarities and differences between Batheaston and a savanna habitat in Africa. The children considered the plants and animals in each location.

PE

The children have continued to develop and refine their cricket skills in PE this week. I have been particularly impressed by the great batting and fielding skills demonstrated by everyone. It has been fantastic to see the children working collaboratively, applying techniques they have learned and showing determination to improve.

As we reach the end of term, I would like to thank the children for all of their hard work and enthusiasm. I hope you all have a restful half term break, and we look forward to seeing everyone back refreshed and ready for another exciting term of learning.

Best wishes,

Sarah

Hazel Class Newsletter
