

Hazel Class Newsletter

Date: Monday 5th October

Dear Parents and Carers,

Maths

In Maths this week, we have been learning about **fractions of objects and amounts**. The children used practical equipment to help them understand how to find fractions of different quantities before recording their learning pictorially and then as number calculations. They showed great perseverance when solving increasingly challenging fraction problems.

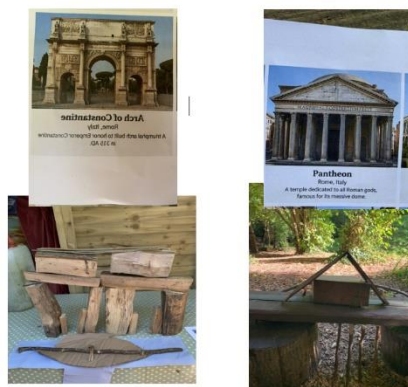

Writing

Our writing has continued to link with our **Roman topic**. The children wrote a recount of their recent Roman workshop, combining their historical knowledge with key writing skills. They worked hard to include **time conjunctions** such as *first*, *then* and *after that*, as well as **writing in chronological order** and **using past tense verbs consistently**. The children produced some detailed and engaging recounts of their experiences.

Mike's Meadow

In Mike's Meadow, the children explored famous **Roman buildings** and worked collaboratively to create models using natural materials. This week, they focused on **The Pantheon** and the **Arch of Constantine**, both located in Rome. The children enjoyed discussing the features and purposes of these impressive structures while developing their outdoor learning and teamwork skills.

Hazel Class Newsletter

Science

In Science, we have been learning about the **digestive system**. The children investigated the functions of the main organs involved in digestion and explored how food travels through the body. They enjoyed learning about the important roles played by organs such as the stomach, small intestine and large intestine.

PE

The children have continued to enjoy developing their skills in **cricket and rugby**. We are also looking forward to welcoming **Andie Parry**, who will be leading rugby sessions as we prepare for the upcoming Rugby Festival. A reminder that PE days remain **Monday and Friday next week**.
